

# Designs in Nature

Fashion designers have often used nature to inspire their patterns. Next time you go on a walk through Cannock Chase, why not find out which part of this nationally important landscape looks best on you?!

First, you'll need to take a photograph of yourself and print it out. Make sure you can see the outline of your top or dress very clearly.

Next, cut out your top or dress with sharp scissors, or a craft knife.

Get help from an adult if you need to.

Go for a walk on Cannock Chase and hold your photo up in front of different backgrounds.

Ask someone to take another photo of the results.

Every plant and animal that lives on Cannock Chase is suited to its particular habitat... but which habitat suits YOU best?
