# Wood Pasture at Shugborough Estate

**Wood pasture restoration**

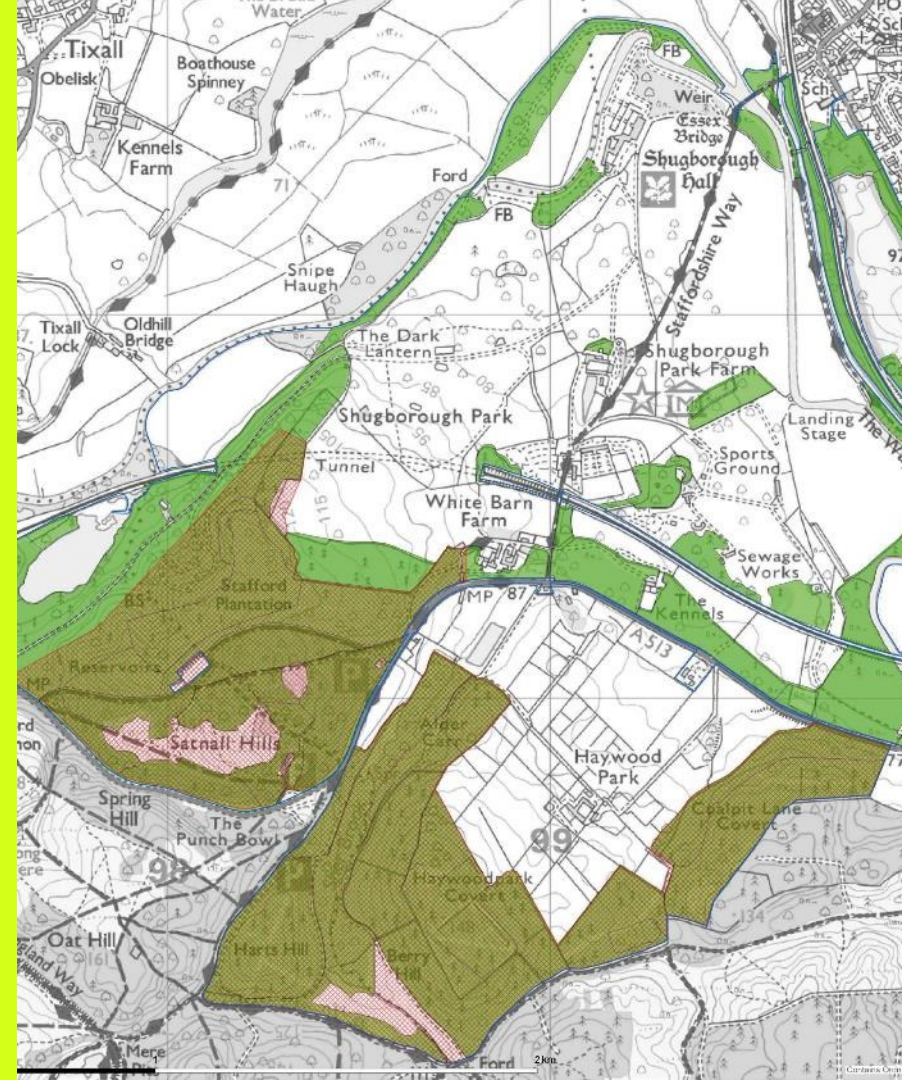

The Shugborough Estate Wood Pasture is a unique landscape that has been restored to its original state. It is a mix of open grassland and woodland, and is home to a wide range of plants and animals. The restoration work has been carried out by the Shugborough Estate and the Forestry Commission, and has been a success. The wood pasture is now a beautiful and productive landscape, and is a great place to visit.

# Feasibility

- National Trust and Shugborough Estate
- Midlands Heathland Heartlands Nature Recovery Network
- Feasibility Study

## Trent Sow Group

- “Assist HS2 to achieve high quality design for key elements and mitigation measures”
- Three roles including funding environmental enhancement projects

# Project Officers

- Previously Greg Williamson
- Currently Jamie Burnett

- Planning and stakeholder engagement
- Tidying up
- Installing infrastructure for grazing
- Veteran haloing works
- Interpretation and engagement

# The Future

- Grazing
- Hedgerow Planting
- Woodland Management
- Other Habitat Works
