

# Local Nature Recovery Strategy

# What is a Local Nature Recovery Strategy?

01

A 'system of spatial strategies for nature...'

*Environment Act  
2021*

# What is a Local Nature Recovery Strategy?

02

Provides support  
for wildlife and the  
climate emergency.

# What is a Local Nature Recovery Strategy?

03

A range of documents, maps, and priorities put together into an overarching strategy for nature.

# What is a Local Nature Recovery Strategy?

04

A partnership that will support delivery of nature-based interventions.

# What will the impact of LNRS be?

1

A new mapping tool that prioritises different areas of the landscape in different ways

2

A strengthened biodiversity duty on local authorities

3

A way to capture and document projects that support local nature

4

Everyone has a say on our priorities for nature

5

A mechanism for utilising funding for nature-based solutions

6

A delivery mechanism for nature focused projects.

# What will the impact of LNRS be?

1

A new way of thinking about nature recovery that recognises different types of nature and different types of people in different places.

2

A strategy for nature recovery that is based on local knowledge and expertise.

3

A way to capture and document projects that support local nature

4

Everyone has a say on our priorities and how we achieve them.

6

# What will the impact of LNRS be?

# What will the impact of LNRS be?

1

A new mapping tool that prioritises different areas of the landscape in different ways

Everyone has a say on our plans for nature

2

3

Identifying nature recovery opportunities

A mechanism for utilising funding for nature-based solutions

6

A delivery mechanism for nature focused projects.

# To summarise

1

**Staffordshire &  
Stoke-on-Trent**  
Local Nature Recovery Partnership

Partnership

2

Nature and environment  
focused strategy

3

Supporting current and  
future nature-based project  
work.

# Thank you for listening.
